

## CROSS OVER BENCH COB-821

### KEY FEATURES

- **Zonal Separation:**  
Acts as a physical barrier between clean and unclean areas, ensuring controlled personnel movement.
- **High-Quality Construction:**  
Fabricated from high-grade SS 304 / SS 316 stainless steel with smooth, polished surfaces for easy cleaning.
- **Hygienic Design:**  
Fully welded with **rounded corners** to eliminate dust accumulation and simplify maintenance.
- **Under-Bench Storage Option:**  
Can be provided with shoe racks or compartments for used and clean footwear.
- **Stable & Ergonomic Design:**  
Comfortable seating height with adjustable leveling feet for perfect stability on cleanroom floors.
- **Easy to Clean & Corrosion Resistant:**  
Mirror or matt finish surfaces with seamless joints suitable for sterile areas.
- **Meets GMP & ISO Standards:**  
Designed according to cleanroom protocols for pharmaceutical and biotechnology facilities.
